██████████ should hopefully show up now. Also, I still have not heard anything back from ITSD on system updates to address the issue with ██████████. I will touch base with them this afternoon.

Subject: client questions

Hi Emily. I have ██████████ here today and she has asked for transportation assistance. She does not show up in my client list and I wanted to be sure she had successfully been transferred to us. Also, IT was supposed to be working on a way to get ██████████ out of the system and I don't see any change or fix for that.
